

Adit Magotra of class 9B participated in the **ATL TinkerFest Technovation 2020** competition hosted by **Atal Innovation Mission (by NITI Aayog)** and conducted by **Bal Bhavan International School, Dwarka**. He participated in the event “**App Development event for classes 9 and 10**”. He secured the **2nd position** in the competition as per the results announced on 23rd December 2020

App Created by Adit- 'FITNESS FACTOR'

Adit developed an app named Fitness Factor on the topic 'Health and Fitness'. The app was developed using the Dart programming language and the Flutter software development kit. This App, Fitness Factor features a blue theme. He has programmed a BMI calculator(to check your BMI), a To-Do list (to write your daily exercise plans) and some animated exercises on the home page. It has a navigation pane, which can take you to different sections of the application.
