Android App Development Workshop
January27, 2022
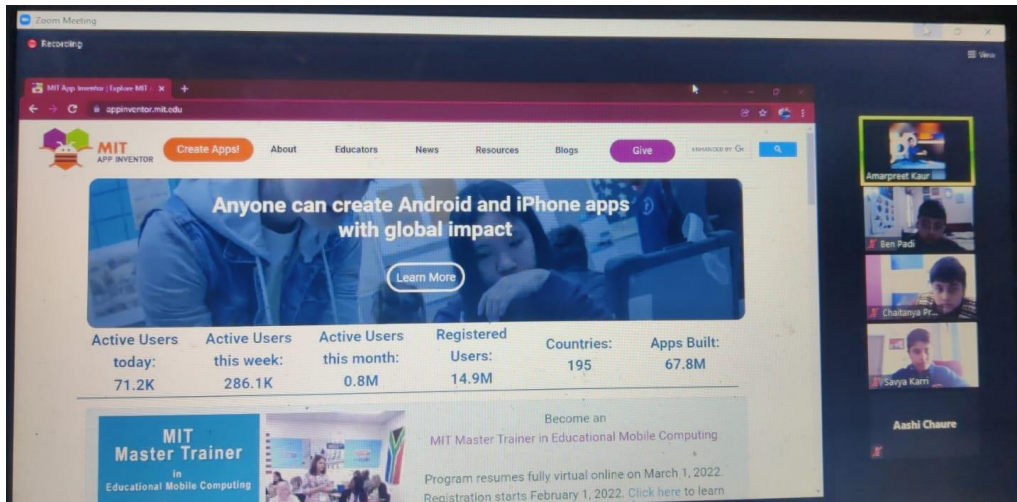

Keeping in spirit with the Atal Tinkering Lab, a one day workshop on App development was organized on January27, 2022 for the students of classes V-VIII by Avishkaar.In the technology-driven 21st century, coding has become a fundamental skill. It includes computational thinking skills in kids which is the method of problem-solving using technology. It also helps children in their academics, especially Mathematics and Physics. It makes them more creative and teaches them important life skills like problem-solving, critical thinking, and self-learning.
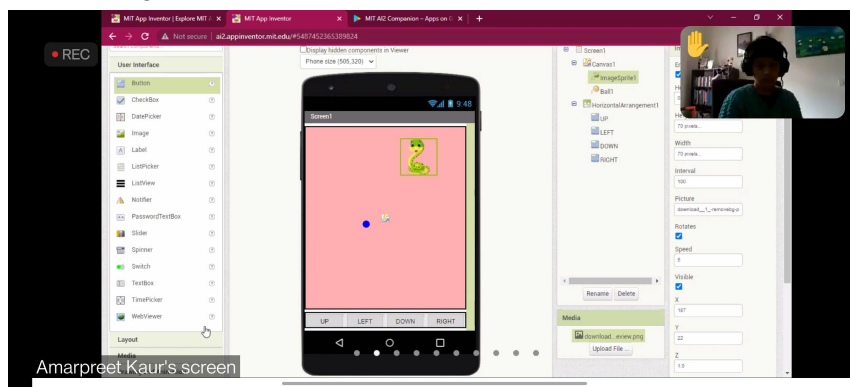

The session was very interactive and fruitful for children.Around 125 students participated in the workshop. They enjoyed learning animation, sprite control, the use of variables, and designing a game. It was a stimulating experience to watch them follow instructions and act promptly to follow them.
