

Annual Maths Olympiad 21, BITS Pilani

The Mathematics Association, BITS Pilani organises Olympiads every year for schools/college students. This year, keeping the tradition alive, the association took the initiative to conduct an Annual Mathematics Olympiad only for the students of Class XI and XII. Through these Olympiads, their aim is to not only give students an essence about competitive exams but also nurture their problem-solving skills in a given span of time.

This edition of the Annual Mathematics Olympiad welcomed 300+ participants from all around India.

Aakruti Kalia of Class XII-A represented our school in this Olympiad and secured the 1st position. She was awarded a Certificate of Merit, along with a cash prize of INR 2500.

Heartiest Congratulations to Aakruti!
