

**Notice for Parents**

April 3rd 2020

Dear Parent

This is regarding the parents' and students' information in our school records. You are requested to go through the details you had submitted and update them, if required. In order to do that, you will have to login to the parent portal and click on the 'Profile' tab under the 'Personal' tab. Please note that no other form is to be filled as that would lead to duplication of data. In view of the need for remote learning, updating this becomes extremely essential. We hope you will do this at the earliest.

Warm regards
