

Dear Parents

Sanskriti School is organizing a Geographical school trip to the Bay of Naples, Italy, in association with Training Trips Educational and Sports Pvt. Ltd. from 15th April '20 to 21st April'20. Students of classes 9th to 12th are eligible to go for this tour.

Geography Tours are etched in the memory of kids for a very long time. On such trips, students get an opportunity to gain exposure, and view the world from fresh perspectives. It encourages students to view things critically, and allows them to investigate further.

Getting first-hand experiences of a place is always much better than reading through the books. It makes the curriculum more meaningful for kids. In new environments, it also becomes extraordinary to participate in workshops and activities. There are many different kinds of geography school trips. While some focus on providing learning experiences through various activities, others simply require students to explore a new destination at their own pace.

For Geography groups, a visit to Pompeii will help them understand the destructive power of Volcanoes. They'll see how the eruption managed to bury not only Pompeii, but several other settlements too. This is an area that boasts rich agriculture and is, as a consequence, famous for its produce and cuisine. And the same was true when the Romans conquered the area from the Greeks in 326 BC.

Today, around 3 million people live within 20 miles of Vesuvius' crater, which last erupted in 1944.
