

## **Interactive CTIP Session Grade 6**

On Monday, the 1st of November 2021, members of the Bizzonomy Club conducted interactive sessions for the sections of grade 6 to help them understand an extremely important topic, namely “Cheques”. Teams of two members each conducted the activity across all the sections of the 6th grade.

The planned activities included slides, which contained information and images, allowing students to understand the topic in an enjoyable and interactive way. The second activity consisted of an online board game based on the information shared during the session. After rolling a virtual dice, students were able to move up on a numbers board and had to answer the question related to the corresponding number. In case they were unable to answer the question, the correct answer was also shown to them. The game acted as a recap to all that they had learnt in a fun and interactive way.

During the sessions, which were conducted during CTIP, the students were enthusiastic and responsive. Many were willing to share their pre-existing knowledge on the topic. They were extremely attentive and made a sincere effort to answer all of the questions that were asked. They even asked the club members to clarify their doubts. Students enjoyed the board game and were able to move forward and answer most questions with ease. We hope that this session gave them some new and valuable information, and helped ignite their interest in the field of Business and Economics.

This activity was an equally enriching experience for the members who were able to learn a lot while preparing the content and conducting the session.
