

## **Session on Protection of Children from Sexual Offences Act (POCSO)**

Violence, abuse and neglect are global issues that affect children's development, including their physical and mental health. All children have a right to access information to keep themselves safe in an environment that is safe, protective and conducive to their overall development. It is our duty as the school to educate them of their rights and responsibilities in this regard, and to furnish them with vital information about how to keep themselves safe in both the physical and the online world. Thus, the Counseling department along with the Legal Studies Faculty have organised sessions for students of classes VII -XII on the 'POCSO ACT' and the availability of support services.
