Dear Parents

I hope you all are well and safe.

Learners, we feel, learn better when they reflect on their learning, to understand how they learn best and to reinterpret any new knowledge, skills and conceptual understandings that they have acquired.

To help our students become more involved in the learning process and from this gain confidence in what they are expected to learn, two Unit Tests would be administered in the months of January to March, 2021 as per the schedule shared below. The students would be guided and trained on being assessed in the virtual platform. This would in turn help in an easy transition to the next grade.

Taking a test would also help develop in our young learners a sense of responsibility and inculcate in them values like integrity and self-discipline.

This assessment process would also be beneficial to us as educators in regards to formulating our teaching and learning programme by incorporating effective strategies to make learning more meaningful.
