

Reading Month (Grade Nursery to Grade V)

The junior wing of Sanskriti School celebrated the Reading Month in July with a lot of enthusiasm across different classes. Teachers and parents from Nursery to Grade II set the program in motion with creative story narrations using puppets and props. This was followed by a multitude of activities. Children were quizzed on the books they love to read. The little ones also got a chance to make beautiful book marks and dress up as their most loved character! Grades III to V focused on children talking for a minute about their favourite storybook/ character/ story in 'Just a Minute' sessions. An engaging month, it was indeed a wonderful celebration of literature and books, which allowed all the children to harness their inner bookworms and bring them out creatively!
