

LITERARY WEEK DAY - 1

DEBATE ON DATA LAWS

Our 9th-grade debaters took to passionately arguing for and against whether national security is more important than individual data privacy. Intense debate saturating the air, each participant vying to do their best to convince the judges (Mamta ma'am and Ruchi ma'am) and make their house proud.

A high level of debate was seen, with real life examples and quotes from legal documents being brought up. All houses performed exceptionally well. The results were announced with a flourish, with Prayas bagging first position, Pratigya coming a close second and Prakash finishing with third position.
