

Prep sports day

The essence of education lies in the art of making it informative while keeping it interesting. There's no better way than uniting games with knowledge.

On the 5th of March 2020, the little ones of our school showcased this very ideology in our Annual sports Meet. The programme took off with the students walking through the origin of yoga followed by 'fun races' highlighting the diversity of India in the genre of cuisine, traditional wear, landscape diversity and modes of transport.

Traditional games like hopscotch and pithoo was also included to deepen the students' cultural outlook.

Henceforth parents along with the teachers presented a cultural 'fusion dance'. Formation of the National Flag by the students was the high note of the grand finale.

This was followed by the distribution of participation certificates. The ceremony came to an end with the singing of the National Anthem.
