### Sanskriti's Young Crusaders against the Pandemic.

Netri Upadhyay, a student of class 10G has created an informative video that teaches the ABCs of fighting the Coronavirus. The video had earlier been circulated on the official Facebook page of TREE Craze foundation but has now been officially adopted by ITBP as part of their exclusive awareness campaign for COVID-19 and has been posted on the official pages of their social media. So far, on Instagram, it has amassed 4,097 views, 595 views on Twitter, 82 retweets, 307 views on Youtube and 362 views on Facebook.

Along with this, Netri has also started an initiative "We The Children", that aims at encouraging and supporting all essential workers, mainly Corona Warriors and being grateful to them for all that they have done for us. This is also an attempt to change the social perception and dispelling the associated social stigma as well.

Sanskriti is immensely proud of her endeavours.
