

Teacher's Day Celebrations (Junior School)

Teachers Day was celebrated with much fervour in junior school. Nursery and prep students were dressed up as their favourite teacher, and gave mesmerizing performances! There was euphoria everywhere as students danced and sang as well. All the teachers were left in awe when they saw their little reflections on the screen. Beautiful cards were shared and wishes flowed for the teachers.

Grade I and II started the day by sharing some interesting facts about Dr. S. Radhakrishna, whose birthday is celebrated as Teachers' Day in India. This was then followed by children's performances, which was an entertaining mix of dance, music, poetry and jokes. The teachers and students also made a corn salad and an ice-cream - biscuit sandwich as part of their 'cooking without fire' activity. Table manners and the importance of hand hygiene to be maintained while handling food was reiterated to the little ones. Everyone thoroughly enjoyed this activity!

Grade III, IV and V began their day by reciting the Saraswati Vandana. The assembly presented by the students of V-E focused on few important lessons of life, which were beautifully woven in a story. A collage of all teachers with a rhythmic song playing in the backdrop got everyone emotional. A short poem, along with an acronym on teachers added to the festivities. The celebrations continued well into the next working day, when Grade XII students took over the study day of Grade III, IV and V as co-teachers. A bagful of interesting and well planned activities made it a fun day for all!
