

The Duke of Edinburgh's Award

Sanskriti School is proud to announce that Aadi Jain and Rishit Kundra of class 10F received The Duke of Edinburgh's Award. This award recognises the skill and determination of young adults between the ages of 14-24 as they complete a series of self-improvement exercises within a stipulated time frame.

Aadi and Rishit won the Bronze award which is the first level of the Award programme. The activities were based on four specific sections namely volunteering, skills, physical fitness and their experience of an adventurous online journey. This programme was about 6 months long and they worked with four award leaders and one examiner.

Sanskriti School is proud of both Rishit and Aadi as they responded to a year full of uncertainty with positive and constructive action. They used their time to enhance their skills and also acknowledge and carry out their responsibility towards the society. We hope that they will continue to tread this path of self-discovery and improvement and inspire many others on the way.
